

Statement of Support for Marriage Equality

“At Stayz we believe in equality and diversity for our employees, owners and guests who enjoy the benefits of holiday rentals across the country. We are in support of all Australians having the same rights to choose who they wish to marry and be treated equally, and it is up to us as Aussies to vote with our hearts to make that change.

Today, we have joined the many other Australian businesses who support marriage equality and as an equal opportunity employer, we feel it is only right to publicly acknowledge our support for fairness and equal rights.”
